Blueprint Framework Grid

We use this grid for horizontal width and responsive breakpoints.

Example in Use

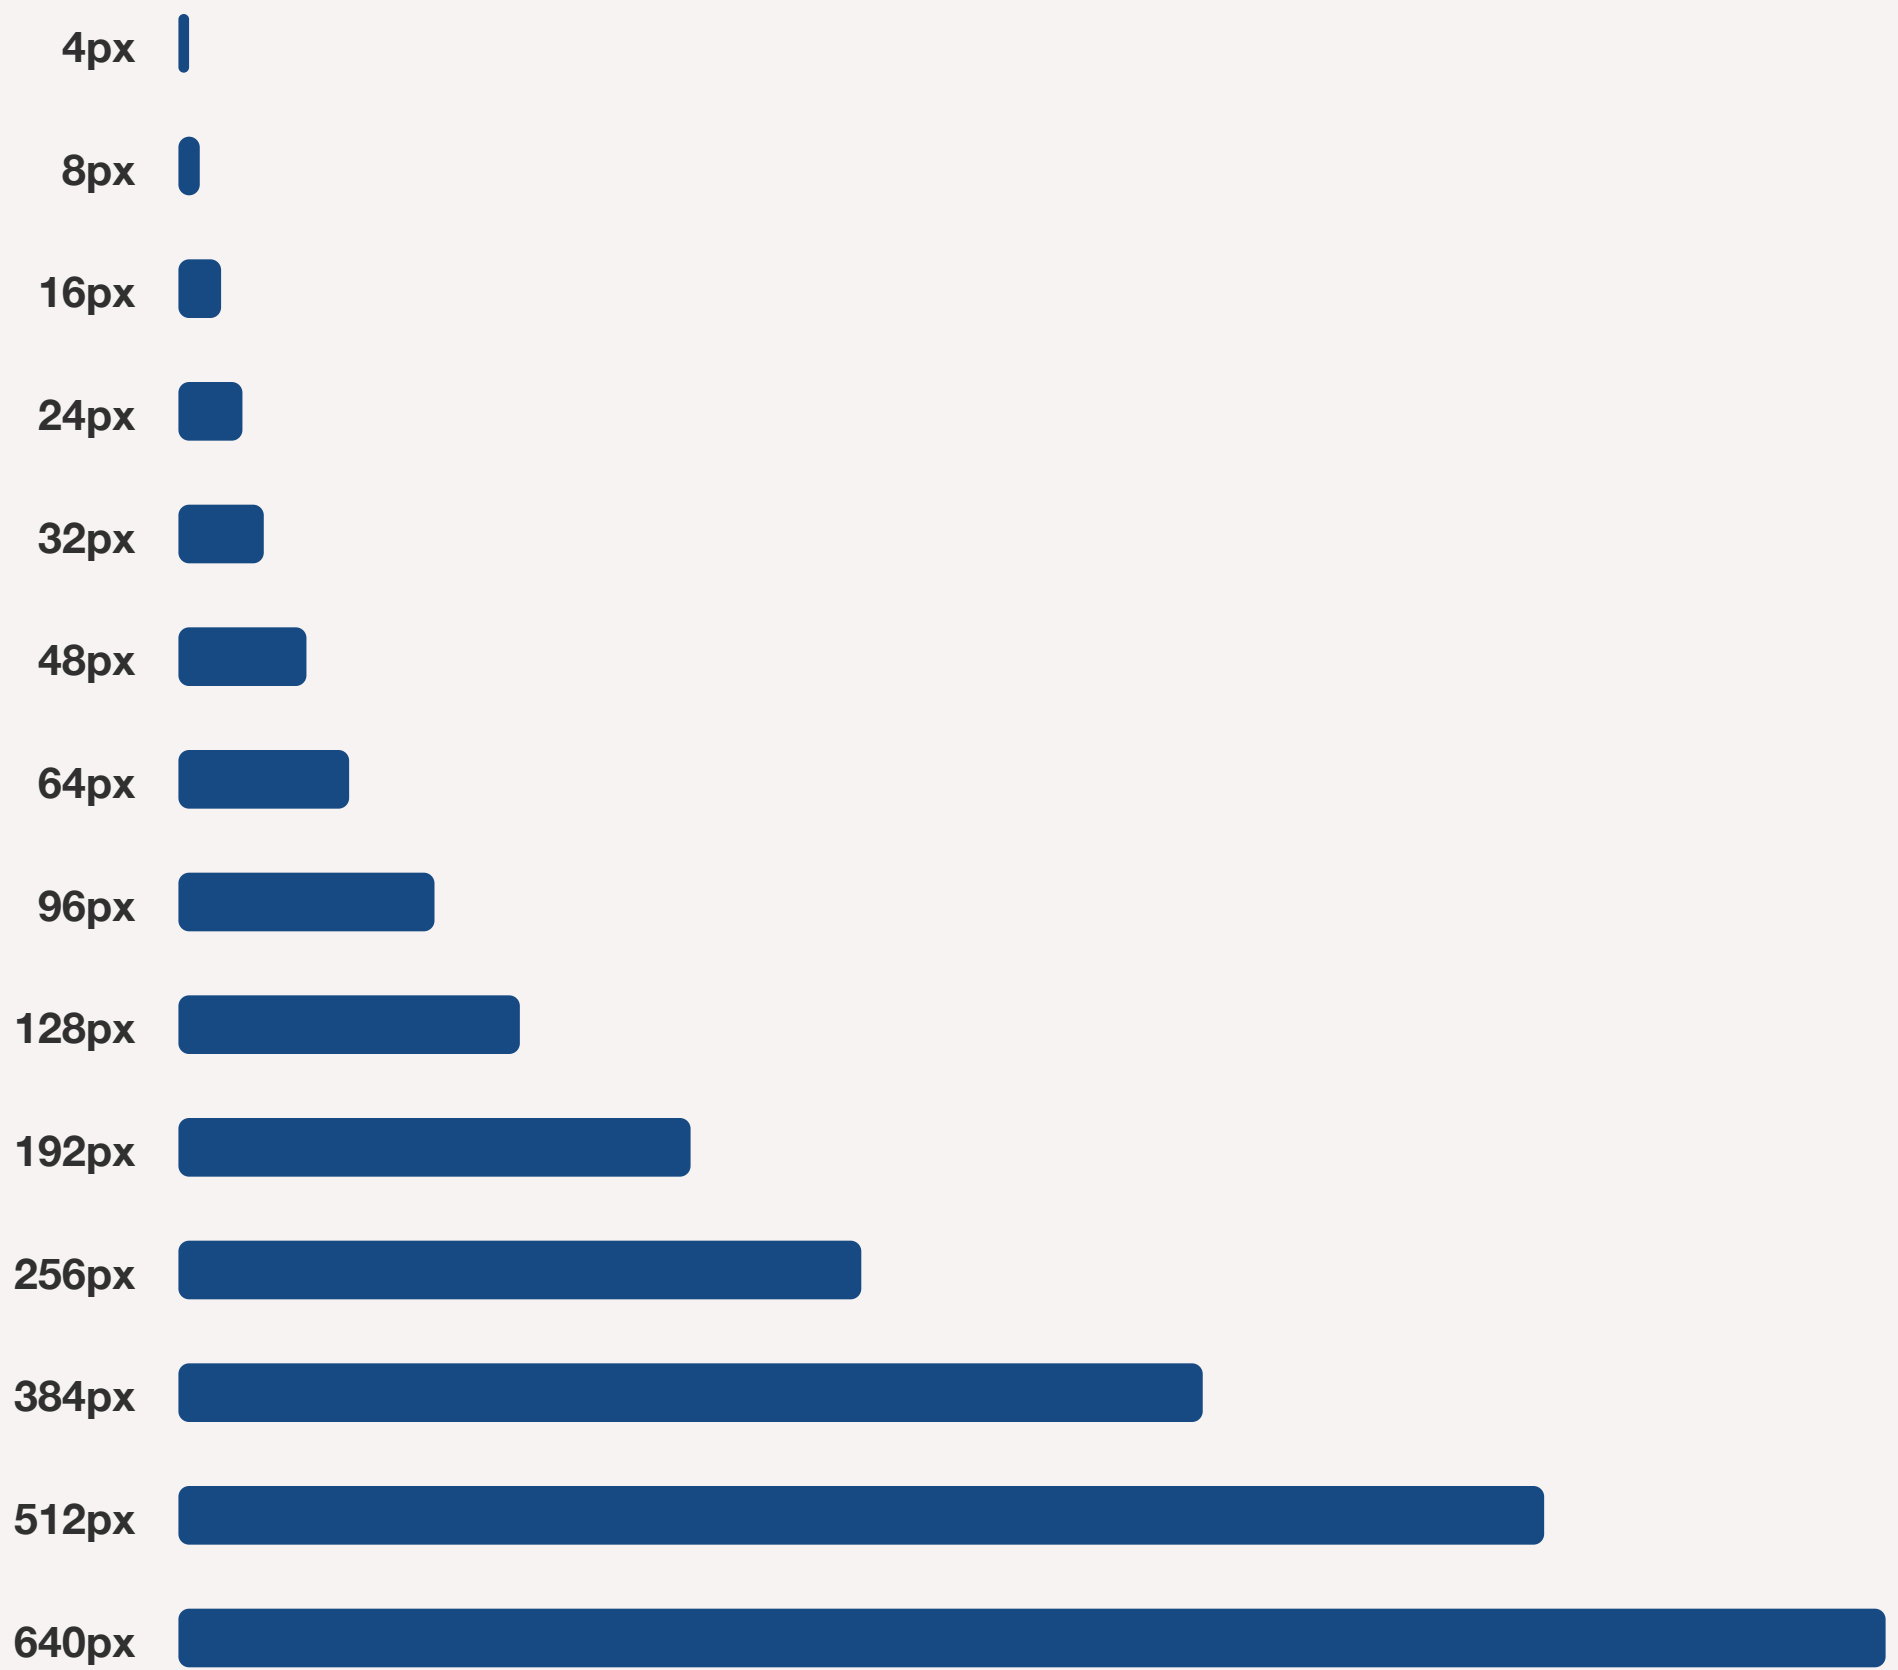

The screenshot shows the Church Pension Group website with a blueprint grid overlaid. The grid highlights various sections and their widths at different breakpoints:

- Span 24 (950px):** The top navigation bar.
- Span 8 (310px):** The search bar.
- Span 730px (Tiny Span 37):** The main content area.
- Span 510px (Tiny Span 25):** The main heading for the Retirement Savings Plan (RSVP).
- Span 190px (Tiny Span 9):** The left sidebar menu.
- Span 190px (Tiny Span 9):** The right sidebar menu.

The website content includes a search bar, navigation tabs (Home, MY CPG, Retirement, Insurance, Learning), a sidebar with links like 'Enrolling in RSVP' and 'Investment Options', a main heading 'Retirement Savings Plan (RSVP)', a list of 'RSVP features include:' (Pre-tax and after-tax contribution options, Ability to transfer assets, 24/7 access, Daily valuation, Loan option), a paragraph about the plan, a link to 'Enroll in RSVP', and a footer with copyright information and links to 'About Us', 'Contact Us', etc.

Spacing System

The 16px system is used for individual elements and the vertical spacing between.

Buttons

Green buttons signify the ideal path, or flow completion. Blue buttons are supporting.
